

# Commission on Diversity, Equity, and Inclusion

## 2021-2022 Call for Proposals

The American Society for Engineering Education (ASEE) envisions widespread, inclusive, and equitable environments in engineering, academia, and industry that embrace individual differences and leverage diversity for a better engineered tomorrow.

The ASEE Commission on Diversity, Equity, & Inclusion (CDEI) Professional Development Committee invites interactive workshop proposals for the 2022 ASEE Annual Conference, and our ongoing Virtual Workshop Series.

Workshop styles may include professional development programming, creative and collaborative dissemination of practitioner-focused research, interactive panel discussions, and other relevant community conversations.

Topics should be relevant to diversity, equity, and inclusion in engineering and related sectors across industry, government, and academia. In recognition of the 2021-2022 **ASEE Year of Impact on Racial Equity (YIRE)**, we invite applicants to consider how the workshop empowers student organizations, implements equitable policies and practices, and/or opens access to engineering.

We encourage collaboration across professional societies, institutions, divisions, and research groups.
