

ASEE's Commission on Diversity, Equity, and Inclusion

Who we are:

The Commission on Diversity, Equity, and Inclusion began in 2009 as the Taskforce on Diversity within the American Society for Engineering Education (ASEE). Its mission is to create strategic plans and systemic policies to increase diversity in engineering, supporting the ASEE Board in fostering equity and inclusivity in engineering education.

Our values & priorities:

PARTNER

We partner with ASEE groups to assess and implement equitable and inclusive policies and practices that advance ASEE's mission, values, and goals.

MODEL

We listen to the needs of ASEE members, and seek to lead authentically, transparently, and inclusively by modeling best DEI practices.

EMPOWER

We aim to cultivate a supportive, respectful, and accountable community that empowers us to strive for diversity, equity, inclusion, and justice in engineering.

GROW

We provide opportunities and support for the engineering education community to grow in their DEI knowledge, capabilities, and effectiveness.
